

BW 500 PN

VERSATILE AND EFFICIENT SPRAYING FOR MEDIUM-HEIGHT VINEYARDS

The BW-PN mounted sprayer combines advanced engineering with practical design, making it ideal for medium-height vineyards and various agricultural applications. Featuring a robust **polyethylene tank** with circuit and hand-washing compartments, it ensures durability and convenience in daily operations. Its **double-speed variable-blades nylon air fan (Ø 700 mm)** provides precise air control, while the anti-drip stainless steel nozzles guarantee even and efficient spraying. Built with a hot galvanized steel chassis and equipped with an **Annovi Reverberi aluminium pump** with an external suction filter and self-filling system. This sprayer delivers reliability and longevity, meeting the highest standards of modern farming.

- External suction filter with self-filling system.
- Compliant with **EC Regulations** for safety and environmental standards.
- Anti-drift nozzles for **low environmental impact spraying**.
- Three-point hitch for secure and efficient mounting.
- **Annovi Reverberi aluminium pump** with an external suction filter and self-filling system.
- **Double-speed variable-blades nylon air fan Ø 700 mm** for precise air control.
- **Hot galvanized steel chassis and conveyor**
- Lightweight design for easy maneuverability.
